

# MJ SEGAL

ASSOCIATES INC

- Pressure and Vacuum Gaseous Sampling Pumps

MANUFACTURER'S REPRESENTATIVES

Specializing in  
Analysis Instrumentation

CEMS & Analyzer  
Maintenance Services

- Trace and Percent Oxygen Analyzers & Transmitters

- Environmental Control Rooms & Enclosures
- Plant Growth Chambers • Incubators • Special Application Chambers

- Process Analytical Systems
- HCl & HF Analyzers & Continuous Emissions Monitoring Systems

Western Research Process Instruments

- Process Photometric Analyzers for UV/VIS Applications • Process Mass Spec
- Trace (ppm/ppb) Moisture Analyzers

- Combustible & Toxic Gas Detection Systems and Hydrocarbon Monitors

Portable emission and combustion analyzers

- Paramagnetic Oxygen, NDIR, FID & Thermal Conductivity Analyzers.
- Pressure, DP, Level & Flow Transmitters
- Continuous Emissions Monitoring
- Analytical Systems Integration
- Tunable Diode Laser

- Gas Standards Generators and Permeation Tubes & Sources

pH, ORP, two electrode conductivity, toroidal conductivity, dissolved oxygen, dissolved ozone, resistivity, and suspended solids

- NeSSI Modular Sample Systems & Components

- Precision Viscosity Measurement & Control

- Gas Sampling components including Probes, Coolers, Filters and Portable Sampling Systems

PRECISION  
SCIENTIFIC PETROLEUM INSTRUMENTS

On-line Refinery Process Instrumentation

- Physical Property Analyzers
- Antek Total Sulfur Analyzers

1051 Mill Creek Drive  
Feasterville, PA 19053

- OMNIGUARD® SENSORS  
Optical Flame Detection Instrumentation
